

Saleh Mohalla Matriculation to College 2012

As in 2011, the Saleh Mohalla Team followed up with ALL the children who appeared in SSC-II (Matriculation) exams.

39 children were identified in Saleh Mohalla who appeared in SSC-II exams this year. The Mohalla Team started collecting their SSC-1 results in May and following up with them to find out their objectives after completing SSC-II.

A summary of these 39 children is as follows;

Enrolled in Colleges	36
Failed Matric	03

Ten of the children are enrolled in private colleges, while the rest have taken admission in Government Colleges under the CAP policy. For the children who have failed in 1 or more papers, we are working on convincing them to appear in supplementary exams. Some of the children will be counselled to consider Vocational Studies.

Choice of study of these 36 children is as follows;

Group	Male	Female	Total
Pre-Medical	1	3	4
Pre-Engineering	10	2	12
Commerce	12	7	19
Humanities	-	1	1
			36

It is a tough task, following up with 39 children. All the more so, since all the children are not on financial assistance. The Mohalla Team has worked hard on these students. And we greatly appreciate their efforts. They will now work on the students that have failed in Matric Exams, one, to ensure that they are convinced to appear for supplementary exams, and two, that they prepare well enough to clear them.
