A comparative summary of the last two years for children upto 15.5 years is as follows;

	<b>No. of Children</b>	<b>Under 2.5 Years</b>	<b>Not going to School</b>	<b>In Sub Standard Schools</b>	<b>In "Quality" Schools</b>	<b>% in Standard Schools</b>
<b>2012</b>	580	51	16	26	487	92.06%
<b>2011</b>	604	60	12	31	501	92.10%

The children not going to school are all those who will be 2.5 years in August 2012. They will either be admitted in schools later in the year or next year.

For the purpose of following up on children who go to Montessori only schools, we keep them in the sub-standard category. The objective is to monitor them till they become 5.5 years of age and make sure that they select a standard school that goes upto Matric. 17 of the 26 are studying in Standard Montessoris including a few who were admitted last year. A few are in higher classes and refuse to be convinced to move to a better school. Our major concern here is a handful of children under the age of 5.5 who are studying in sub-standard schools. We will continue to work on them.

Our thanks to the Mohalla Education Team for the effort put in by them to ensure that children get admitted to good schools.
