

Adam Mohalla Matriculation to College 2012

As in 2011, the Adam Mohalla Team followed up with ALL the children who appeared in SSC-II (Matriculation) exams.

As the largest Mohalla in this program, the Adam Mohalla Team has to follow up with the most number of children. 47 children were identified in Adam Mohalla who appeared in SSC-II exams this year. The Mohalla Team started collecting their SSC-1 results in May and following up with them to find out their objectives after completing SSC-II.

A summary of these 47 children is as follows, now that college admissions are over;

Enrolled in Colleges	42
Failed Matric	05

Eleven of the children are enrolled in private colleges, while the rest have taken admission in Government Colleges under the CAP policy. For the children who have failed in 1 or more papers, we are working on convincing them to appear in supplementary exams. Some of the children will be counselled to consider Vocational Studies.

Choice of study of these 42 children is as follows;

	M	F	Total
Pre-Medical	1	4	5
Pre-Engg	8	5	13
Commerce	12	5	17
Humanities	-	5	5
Computer Science	2	-	2
	23	19	42

It is a tough task, following up with 47 children. All the more so, since all the children are not on financial assistance. The Mohalla Team has worked hard on these students. And we greatly appreciate their efforts. They will now work on the students that have failed in Matric Exams, one, to ensure that they are convinced to appear for supplementary exams, and two, that they prepare well enough to clear them.
